# The child is a researcher and a practitioner
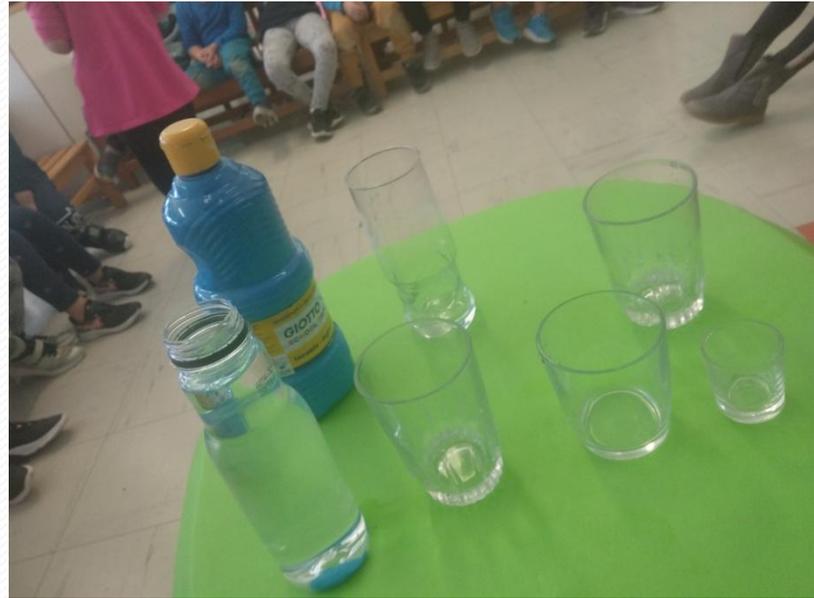

Steam activities in Greece

# SCIENCE

Students **observe** …

''What happens if…''

… and make **assumptions**

SCIENCE

They do the **experiment** and write down the **results**

SCIENCE

SCIENCE

We made our own insect repellent

TECHNOLOGY

We use technology in all learning subjects

- Bee bot

TECHNOLOGY

- Interactive whiteboard

ENGINEERING

Students discover the world of engineering through experiential activities

# ENGINEERING
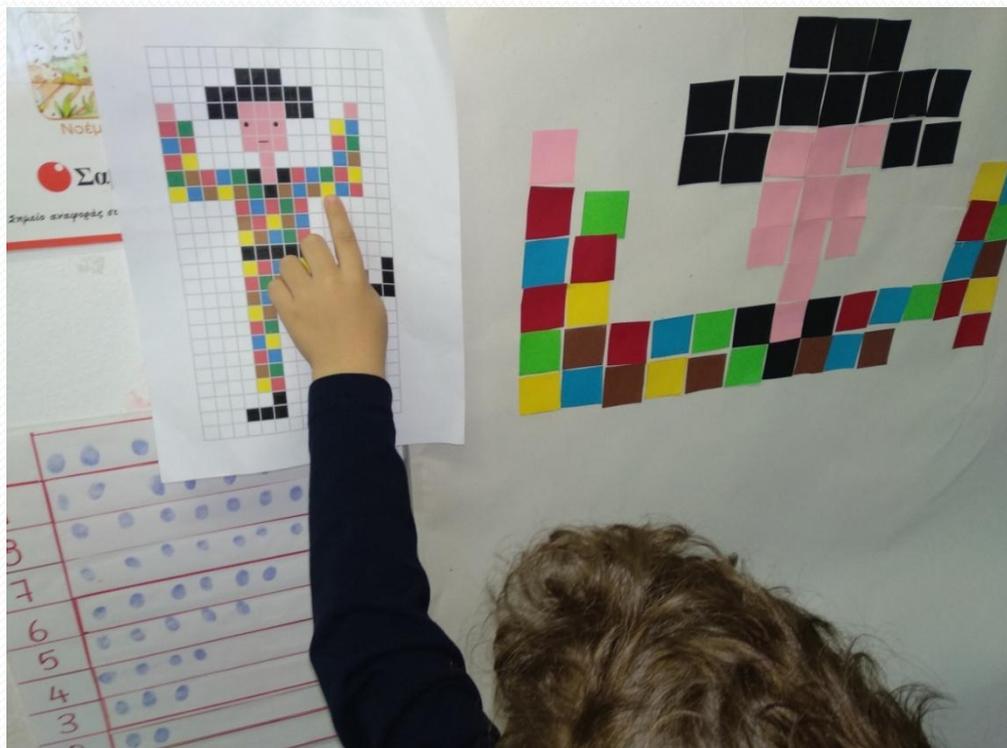

We learned about the pulley

# ENGINEERING

ART

Art inspired by outdoor learning

ART

ART

our own creations on the wall of our school by the hands of an artist!

MATHEMATICS

MATHEMATICS

I can say thank you in many languages… But the feeling that comes with it, lies deep in my heart… Thank you from the bottom of my heart for all this wonderful educational trip that we had together…
